Roblox's Bronstein is more bullish. "While shared experiences in the Metaverse today are about doing fun things together, in the future they will be about literally anything people can do together in real life: learn together, play together, or work together." Roblox, in other words, wants to replace the workplace and the classroom, the pub and the tennis club.

Equally, if you get caught using an account generated through these programs, there are big consequences. The official Roblox site strongly advises against using schemes like account generators. They say that anyone asking you to input your details anywhere is scamming you, and that you won't receive a glitched account or free Robux. The terms of service also warn against it, too. They say that you cannot obtain "exploited game or experience content." This includes hacked accounts with Robux. If you're caught doing this, they reserve the right to immediately close your account.

More often than not, you can't use a Roblox account generator through any legitimate means. Though they may

appear on sites like Reddit, to actually get the account, you'll need to join closed Discord servers, and download specific software that isn't verified by the game's developers. Therefore, you're taking a huge risk with your device's security by downloading them, as they could contain anything from viruses to spyware. They're also pretty unreliable. If you go to the trouble of downloading one, it might not even work.

Many of the Roblox games I've tried feel somewhat rudimentary, offering simple controls and graphics. But the point isn't really to go pro in any one Roblox game — it's more that there are millions of virtual spaces to hang out, and many of them have the added benefit of being games.
